Fabric Gate Installation Instructions

Included

- Starting Post with Fabric Attached
- Receiving Post
- (Qty 8) 1/2" Anchors

1. Anchor the posts into the desired locations (Figure 1) The starting post with the fabric gate on it should be mounted such that the hooks that the bar hooks on are pointed away from the dock door (Figure 2 – red arrows) Make sure the posts are completely level before continuing. (Figure 2)

5. The gate is now locked in place. to unlock and open the gate, refer to Steps 6 – 9.

6. To open the gate, first disengage the locking mechanism (Figure 7) and then release the tension on the gate by rotating the tension mechanism clockwise (Figure 8)

Figure 7

Figure 8

7. Unhinge the gate from the receiving post and walk towards the starting post with the gate in hand. The gate will wind itself back up as you approach the starting post (Figure 9)

Figure 9

8. Hook the gate onto the starting post (Figure 10)

Figure 10

9. Once the gate is in place, on the receiving post engage the locking mechanism (Figure 11) and add tension to the gate by rotating the tension mechanism counter-clockwise until snug (Figure 12)
