## Side Mount Post Protector Installation Instructions

### Included:

- Post Protector
- 2 nylon - locking nuts
- 2 Bolts
- 4 Washers

### To Assemble:

1. Align the Post Protector holes to the holes of the racking in desired location. The sticker should be on top of the post protector.
2. Put one washer onto the bolt. Then put the bolt with washer on it through the top post protector hole and through the racking holes (see Figure 1)
3. Once you have fed the bolt through, put the other washer on the side of the bolt that is sticking out. (see Figure 2)
4. Secure bolt with nylon locking nut (see Figure 3)
5. Repeat steps 2-4 for the bottom hole of the post protector.
6. Your Side Mount Post Protector is now ready!
7. Save these instructions for future reference.
